

# POSTMARKED: MAIN STREET

By Abigail Kulick, Main Street Manager

Greetings from Main Street! Close your eyes and listen....can you hear it? Music on Main Street has become a reality. Come downtown for Sidewalk Sales this weekend and you will be one of the firsts hear the musical accompaniment of Main Street's brand new outside sound system! This project has been in the making for over a year and the Promotion Committee has been raising funds since March. Needless to say the committee is excited that the project is complete and they are more than ready to kick off their shoes and dance to the beat of the new music!

The Main Street Promotion Committee appreciates following businesses and individuals who have financially contributed to the purchase of the sound system. Without their support our streets would still be quiet.
